Possibly. The main piece of property involved in the Site has been split over the years into at least five separate properties. A contractor attempted to collect Deed records and found holes that they could not reconcile, so I am expecting it to be a difficult site to research. What I plan to do is show Dipanjana the basic process, then divide up the properties between us to save time. I anticipate it will be like researching five separate properties until we can get back in time to when the property was one piece. Plus, Bob said he just got back from Houston a few days ago and had to spend much more than anticipated, so I didn't want to be under-capitalized.

Hi David,
Are you expecting to collect a voluminous amount of docs? Usually \$100-150 is more than sufficient for deeds.
Thanks,
Lydia

Lydia,
I am requesting funding for copies of Deeds and Records related to the PRP search effort for the Hope Iron and Metals site in Hope, Arkansas, not to exceed \$300. Se
